

CANDY BOX BY George Iglesias

Another complete sold out at Blackpool Magic Convention 2026!

Candy Box is a brilliantly clever utility prop that allows you to appear or vanish candy in the most organic and impossible-looking way imaginable, using a candy tube box, a natural container itself as a perfectly ordinary object.

You openly display the box and show it 360°, then you open it and show it completely empty. Nothing outside! Nothing inside!

Now in a blink of an eye, the magic happens and from that empty box, candy begins to appear: M&Ms, Skittles, Oreos, or any other candy you choose.

Candy Box is fully customizable. You receive multiple stickers so you can adapt the look of your box to match your preferred brand.

From kids shows to family audiences, this prop fits seamlessly into your world, the possibilities are truly endless, the only limit is your imagination.

Why you'll love Candy Tube:

- Effortless & Fun – Perfect for professionals and beginners alike.
- Ready to Perform – No complicated setup. Just grab it and go.
- Instant Reset – Perform back-to-back without slowing down.
- Built to Last – Durable designed for countless performances.

Candy Box adds instant visual punch and joy to any routine. It's more than a trick. It's a reliable utility prop that delivers surprise, delight, and strong reactions from audiences of all ages.

Once you perform it, you'll understand why Candy Box isn't just sweet... it's irresistible!
