

Ultimate Ambitious Card by JT (Blue)

For decades, the Ambitious Card has been one of the strongest effects in card magic.

A signed card is placed into the middle of the deck... yet it repeatedly rises back to the top. Simple, direct, and understood instantly by any audience.

Now, JT presents **Ultimate Ambitious Card** - a refined handling designed to make the entire sequence look cleaner, fairer, and more impossible.

Designed to keep the strength of the classic plot while removing unnecessary handling, this routine focuses on clarity from beginning to end. From the very first selection to the final reveal, the structure is built around naturalness and conviction. From selection to finale, the routine keeps the focus on a single signed card.

Each phase can be shown openly as a single card. The audience can even turn over the top card themselves. The classic bent-card sequence is fully preserved, and at the conclusion of the routine, the entire deck can be openly spread face up, with the signed card still able to be handed out as a souvenir.

More importantly, this is not just a single routine - it is a powerful foundation.

The structure naturally allows the routine to expand into a larger finale. Whether you want to end with the entire deck transforming into a brand-new sealed deck, changing into another form, or flowing into your own favorite ending, **Ultimate Ambitious Card** provides a clean and flexible platform to build on - allowing the entire routine to end remarkably clean.

The method is practical and extremely easy to perform. Very little sleight of hand is required, and the handling leaves almost no visible "move" during performance. Clean enough to hold up under repeat viewing and phone cameras, **Ultimate Ambitious Card** is designed for both real-world performance and modern social media conditions.

Features

- Extremely clean and direct handling

- Multiple convincing single-card displays
- Spectator can reveal the top card themselves
- Ends with a full face-up spread of the deck
- Signed card can be freely given away as a souvenir
- Strong reactions with minimal procedure
- Suitable for close-up, walk-around, social media, and formal performances
- Durable gimmick built for long-term professional use

This is JT's modern approach to one of the most important plots in card magic - practical for working performers, yet visual and fooling enough for enthusiasts.
