

Ticket by João Miranda and Julio Montoro

Welcome to **Ticket**, another amazing creation of João Miranda and Julio Montoro.

This is a super visual effect that happens in a blink, and looks like real magic!

In this effect, a card is chosen and lost in the deck.

The magician then states that he correctly predicted the chosen card, and that he kept the prediction inside his phone case.

The magician removes the phone from the case, and... nothing to be seen... there is only a bill, some papers, and a ticket.

SUDDENLY the ticket visibly morphs into the chosen card!

The audience will go crazy when they see this transformation - it really looks like a TV special effect!

Keep in mind:

- The magician has **FULL CONTROL** of the transformation
- Reset takes only 3 seconds
- The effect is super easy to perform
- The clever, well-made gimmick does all the work for the magician
- The trick is **ALWAYS** ready to go inside your phone case.

NOTE: The gimmick fits most phone cases. The case must have a free space of 5.11 inches x 2.36 inches (13cm x 6cm).
