

Escape (Red) by Patricio Teran

Escape

is a fresh and practical card effect built around a rare idea in card magic: an actual escape.

A spectator freely chooses a card and signs it. The signed card is returned to the deck, which is then placed back inside the card box and secured with a lock. Despite being trapped inside the locked deck, the signed card impossibly escapes. Everything can be shown naturally during performance.

The effect is direct, visual, and easy to follow for any audience. Best of all, the signed card can be handed out as a memorable souvenir at the end.

Features

- A rare "escape" concept in card magic
- Signed card can be given away
- Simple and practical handling
- Clear effect for close-up and social performances
- Designed for real-world use

Includes

- Special gimmicked deck
- Lock
- Silk cloth

Escape

combines an everyday object, a locked condition, and a signed card into one clean impossible moment.
