

ACAAD - Any Card at Any Dice by Mathieu Cima (Red)

ACAAD

by Mathieu Cima & Magic Dream - ACAAN Reimagined with Dice.

Mathieu Cima has taken the legendary ACAAN plot... and completely reinvented it.

The result? **ACAAD (Any Card At Any Dice)** - a devastatingly clean, highly entertaining miracle that made a huge impact at the Rendez-Vous 2026 convention and is now officially produced by the Magic Dream Label.

This is not just another card trick. This is a classic redefined.

The Effect:

Imagine this... a spectator is handed more than a dozen dice.

They roll them.

They mix them.

They choose which values matter.

They can even turn some dice over to change the numbers.

Or even add annotations imaginary dice with their mind.

At this stage, everything feels completely uncontrolled.

No magician handling.

No suspicious procedure.

No forced card.

Just pure randomness.

And yet...

Those chaotic numbers are used to count down in a deck you've never touched.

The spectator deals, and lands on one single card.

A card that should be utterly impossible to predict.

But it matches the prediction you made from the very beginning.

This is exactly why ACAAD is getting so much attention.

Because it delivers the impact of ACAAN without the usual compromises.
