

## Through by Marco Markiewicz

Take out two playing cards and fold each of them in half. Visibly pass one card through the other, then hold them firmly at your fingertips.

Slowly pull them in opposite directions... Right before the spectators' eyes, the cards literally melt through each other.

Immediately unfold the cards to show there is absolutely nothing to hide, then hand them out for examination with no switch whatsoever.

- 100% examinable.
- Ultra visual.
- Clean.
- No switch.
