

Lubors Gift Phantom Edition by Murphy's Magic and Lubor Fiedler

A refined, professional evolution of the classic Gozinta Boxes, **Lubor's Gift (Phantom Edition)** elevates a timeless impossibility into a true performance piece.

Every detail has been reengineered with intention, larger proportions for visibility, thicker construction for substance, and a premium finish that immediately communicates quality the moment it's placed in front of an audience.

The boxes themselves are substantial and precisely crafted, built to withstand a lifetime of real-world use.

This is not a novelty prop.. it's a durable, dependable piece designed for performers who expect their material to hold up show after show! **The Phantom Edition** plays stronger in both close-up and parlor environments, while the weight and build reinforce the impossibility at every phase.

Phantom Edition also arrives fully equipped with a custom velvet carrying case to protect the set in transit and storage, ensuring it remains in pristine condition no matter where your work takes you. Thoughtful additions, like the included shipping stickers, open the door to modern, believable presentations that feel grounded and organic.

Beyond the prop itself, you're given multiple routines that explore different ways to present the effect ranging from direct demonstrations of impossibility to more layered, theatrical approaches.

Included as well is a standout comedy audio routine built around a brilliantly absurd premise: if anything goes wrong during the show, the performer can simply call customer service and return the product mid-performance. It's a line that consistently lands, creating a memorable moment that can stand on its own or integrate seamlessly into a larger act.

At its core, the effect remains one of magic's most elegant paradoxes. Two boxes are shown. One clearly fits inside the other. Then, without explanation, the relationship reverses. What was once larger is now smaller. What was outside is now contained. The audience is left confronting a contradiction they cannot

resolve.

Includes:

- One set of Lubor's Boxes
- One velvet carry bag
- Sticker Set
- Online instructions
