

## InstaGrab by Patrick Kun

Pull a thought-of card right off one's phone screen - looks unbelievable!

A Card From Phone like no other. For the first time ever, you'll be able to pull a thought-of card from Instagram without **ANY special apps**, leaving the picture altered forever. That's just the start of what is possible with the **InstaGrab** utility device. You'll learn multiple variations and principles, but in the end, your imagination is the limit! It works with both IOS and Android. It will also make your old mystery card tricks fun to perform again. Oh, did we mention all of this is done on the spectator's borrowed phone?

### What you receive:

- **InstaGrab** gimmick (Red Bicycle Back)
- 40+ minutes of HD online instructional video
- 3 variations taught for both iPhone and Android
- Card from lock screen variation included

### Reviews:

*"My full review for **InstaGrab** by Patrick Kun.*

*"This is incredible. This is extremely easy to learn. The packaging is very nice, you get an envelope with everything you need inside. The files are provided over the download. The instructions are clear and detailed, you get 40 minutes of instruction. The index is very well made out of high quality leather. Seeing as it is leather, it takes a little while to break in. This (depending on the set up) can be immediately posted to your Instagram. The best part about this is IT ISN'T LIMITED TO A CARD TO PHONE, this is a great utility device. The reactions you get with this are priceless. So now my rating (out of ten)*

*"Set up: 9/10*

*"Practicality: 10/10*

*"Video quality and production: 10/10*

*"The index: 10/10*

*"Overall: 10/10*

*"Highly recommended!*

*"Thank you, Patrick, for this gem!"*

*"Anyone who knows me, knows I have so many methods and effects for phone magic, specifically iPhones, that you would think I'm obsessed with it, so I love a good phone effect.*

*"Patrick sent me **InstaGrab** last night. Wow! This is seriously good! The actual pulling of the card is so so magical that I have to say that this is the most clever, beautiful and elegant illusion of its kind that I have ever seen. I was also impressed with the video quality and explanations because they are of the highest quality.*

*"Thank you, Patrick, for this great effect bro."*
