

## **Coin Vault Set - Patina Glyph**

When the weathered glow of brass blends with the instantaneous transformations of close-up magic, Coin Vault - Patina Glyph reinterprets the classical charm of magical artistry in a distinct way. This magical box, crafted with brass as its foundation and ancient inscriptions as its soul, perfectly merges the patina of antiquity with the mystique of magic, becoming the "time capsule" in a magician's hands.

### **Material - Patina Texture, Traces of Time**

Made from high-quality brass, it undergoes a special process to develop a natural oxidized patina. Each box features unique variations in color gradation, displaying transitions from light gold to deep bronze under light. The distinct texture carries a sense of aged character. Carefully polished edges and curved surfaces ensure smooth handling while preserving a visually rustic and elegant aesthetic.

### **Design Aesthetics - Inscribed Imprints**

The lid center is adorned with an ancient textual symbol crafted in relief, framed by classic scroll patterns along the edges. Every engraved line is meticulously refined by hand. The sides of the box are decorated with continuous geometric motifs-simple yet refined. The overall design retains a classical charm while aligning with modern aesthetics, seamlessly integrating into magic performances without appearing out of place.

### **Function - Born for Magic**

As the "ultimate vessel" for close-up magic, this product is specifically designed for the "coin transposition" effect. The interior is precisely sized to fit four Half Dollar coins, allowing coins to "vanish" and "reappear" seamlessly. (Note: Actual performance effects depend on professional handling.)

### **Included Components - Ready to Use**

Includes one Slot, one Boston, and one Okitobox, sharing a single lid.

### **Pricing and Positioning**

This is not just a prop-it is a collectible magical work of art.

**Coin Vault - Patina Glyph carries the magic of coins with the charm of patina, transforming every performance into an artistic dialogue that transcends time.**
