

DMC Elites Pro-Tier Portcullis

They're finally here. **ELITES V7** - the new PRO-TIER edition - is available now!

Featuring a more discreet m***ing system, a soft crushed finish, a premium oxblood-red tuck case, plus a blank-faced card and double-backer in every deck.

This is the most refined ELITES deck we've ever made. Thank you to everyone who has supported these cards over the years. I cannot wait for you to finally hold this edition in your hands.
