

Diminish by Damian Surr

Your audience sees the deck begin to shrink.

Slowly.

Visibly.

Impossibly.

A card is freely chosen, signed if you wish, and returned to the deck. Then, in full view and with nothing to hide, the cards slowly disappear.

First, the cards of the not-selected colour vanish.

Then those of the not-selected suit.

Then all remaining cards vanish until only the selection remains and can be immediately handed out.

An ultra-clean multi-phase visual deck vanish with a logical structure that audiences instantly understand, and performers can quickly master.

Unlike traditional vanishing deck effects that happen in an instant, **DIMINISH** allows your spectators to watch the impossible unfold before their eyes. The deck visibly reduces in size three times, creating a sequence of escalating moments that build suspense and astonishment before the final revelation.

The structure is logical, natural, and easy to follow. Every phase feels motivated. Every moment strengthens the illusion.

Best of all, **DIMINISH** is designed for real-world performance.

- Use any deck (even borrowed).
- Free selections.
- Use signed cards if you wish.
- End with a fully examinable card.
- Instant reset.
- No threads.
- No elastic.
- No springs.
- Easy to perform.
