

## 2 FACE by Jamie Williams and David Jonathan

The creative minds of Jamie Williams and David Jonathan have joined forces to bring you **2 FACE** - a celebrity prediction unlike any other with a killer double-twist ending.

From your wallet, you remove ten cards from a celebrity quiz game and place a prediction envelope aside.

The spectator names any number between one and ten, then deals to that number to arrive at a random celebrity. You gesture toward the prediction envelope and ask *"Would you be impressed if inside was a card with your celebrity on it?"*. You remove the single card inside, which has the "Your Celebrity" gag joke printed on it. You assure them the real prediction is actually on the reverse side, which is revealed to be a QR code. The spectator scans it with their own phone, but it's an image of the wrong celebrity.

Everything has gone horribly wrong, but as a magician, you will remedy the situation. You direct their attention back to the printed QR code and the pixels have now re-arranged, transforming into a pixelated silhouette of their selected celebrity inside the code!

But that's not all - when they look back at their phone, the image is impossibly now their chosen celebrity - a stunning double finale that hits twice as hard!

**2 FACE** is a visually striking, highly engaging routine where impossible moments unfold in both the physical and digital worlds, blurring the lines of modern magic in a way audiences will never forget.

### Key Points:

- Spectator uses their phone (iOS or Android)
- No apps, shortcuts, app clips, installs or setup
- No card switches - the QR card never leaves their sight
- Everything ends completely clean
- Multiple handlings taught (they don't need to name a number)
- Easy to perform
- Multiple celebrity reveal outcomes possible
- Includes PVC plastic cards, custom printed envelope & wallet
