

Bicycle - Pastel Blue

Let yourself be captivated by the Bicycle Pastel collection, a modern and poetic reinterpretation of the world's most famous deck of cards. Combining the legendary quality of the American brand with an aesthetic of infinite softness, this lineup brings a touch of freshness and elegance to any game table.

For magicians, the Bicycle Pastel deck elevates the impact of every routine thanks to its completely sober and minimalist visual design. Far from the aggressive contrasts of traditional designs, its delicate shades set a serene and clean atmosphere during your close-up performances. This chromatic minimalism naturally disarms the audience, drawing attention away from any gimmick to refocus it entirely on the purity of your sleight of hand and card effects.

For cardists, every manipulation is transformed into a true visual work of art. The softness of this exclusive palette enhances your flourishes, cuts, and displays by creating fluid, hypnotic movements of color. Combined with the legendary glide of the Air-Cushion finish, this deck becomes a natural extension of your hands, where the subtlety of the poetic shades adds a brand-new aesthetic dimension to your most technical moves.

For collectors, this deck stands out as an exceptional piece for your shelves, beautifully breaking away from the American brand's historical design codes. It is a must-have for anyone seeking rarity and everyday graphic elegance. Between its minimalist tuck case and its unique color harmony, it is a true style statement designed to bring a touch of modernity and freshness to your collection.

Embrace the softness with the Bicycle Pastel lineup!
