

## Ultimate Rising Card from Glass by Sorcier

Introducing **ULTIMATE RISING CARD FROM GLASS** by Sorcier

We present a new version of the card rising from the glass. With this new version, you can have someone choose a card from the deck, scatter it, and shuffle the cards. Now, the cards are placed in the box, which is left open. The box is placed in a transparent glass. With a magical gesture, only the chosen card will begin to emerge from the deck and reveal itself. The cards, the case, and the glass can then be released for inspection. It's a revisited magic classic. The card remains under your control at all times.

This version is sure to amaze your audience. Any standard 52-card deck with its own box can be used.

The special glass and gimmick with clear video explanations are provided.
