

The Three Card Trick V2 (Adult Version)

A highlight of Dave's 'Sleight Returns' lecture, **The Three Card Trick** is now available in all new custom printed cards. And there are TWO versions available!

Here's how the ADULT version plays out...

Effect:

Attempting to perform 'The World Famous Three Card Trick' you display cards printed on the face with big bold numbers - 1, 2 3 and...wait....4? The number 4 card is placed in a pocket and the cards are counted again - 1, 2, 3 and 4!?

Each time you pocket the '4' card, it somehow makes its way back to the packet. Just when you finally display 3 cards one of them disappears leaving you with just TWO cards! In frustration you finally give up revealing that these two cards say 'F**K THIS!' in big colorful letters.
