

The Three Card Trick V1 (Family Version)

A highlight of Dave's 'Sleight Returns' lecture, **The Three Card Trick** is now available in all new custom printed cards. And there are TWO versions available!

Effect:

Attempting to perform 'The World Famous Three Card Trick' you display cards printed on the face with big bold numbers - 1, 2 3 and...wait....4? The number 4 card is placed in a pocket and the cards are counted again - 1, 2, 3 and 4!? Each time you pocket the '4' card, it somehow makes its way back to the packet. When, finally, you successfully display just 3 cards and the trick is about to begin, the third card....disappears! And if they liked the three card trick? They're going to LOVE the Two Card Trick! The last two cards are fairly displayed. They now say 'The Two Card Trick' in big colorful letters.
