

## Mental Post-It Pad by Michel

The swami writer is one of the greatest inventions in mentalism.

The problem has always been the same: how to carry it, how to load it, and how to write naturally.

This is the definitive solution.

What looks like an ordinary Post-it note is actually a cleverly designed tool that allows you to carry your writer effortlessly, write comfortably, and reset instantly, all in the most natural way possible. It fits in any pocket, uses real Post-it notes, and feels completely innocent in the your hands.

You can hold the Post-it Pad while keeping your thumb completely free, allowing for smooth, easy and natural writing.

It works equally well for right-handed and left-handed performers.

A familiar object.
