

Electricks Spirit Series Pad (Impression Device)

Three matching blackboards. One seamless system. Clean miracles.

In modern mentalism, the real challenge isn't getting information - it's revealing it cleanly, naturally, and without suspicion.

The **Electricks Spirit Series** was created to solve that exact problem.

Not with a single clever prop. But with a complete, unified slate system where capture, reveal, and clean ending all happen using identical-looking blackboards. No mismatched props. No awkward transitions. No "why did the board change?" moments.

Just pure theatre.

What Makes Spirit Different

Most electronic boards do one thing well. Spirit was designed to do everything - and still end clean.

The Spirit Series consists of three visually identical A4 blackboards, each with a specific role:

- **Spirit Pad** - captures writing or drawings naturally
- **Spirit Echo** - reveals them instantly, in real time
- **Spirit Plain** - ungimmicked twin for switches, handouts, and clean endings

They can be used independently - or together as a single, flowing system. Everything looks familiar. Everything feels fair. Nothing else works like this. Everything looks natural. Everything feels fair. Nothing else works like this.

Spirit Pad - Modern impression slate

Spirit Pad is a natural A4 blackboard that secretly captures exactly what the spectator writes or draws - and transmits it instantly.

It works seamlessly with:

- Spirit Echo
- PeekSmith 3
- MrCard
- The PeekSmith app

- Supported third-party apps
- Smooth. Accurate. Fast.
- Designed to disappear in the spectator's mind.

Combine Spirit Pad with Spirit Echo for a complete write ? appear ? trace ? hand out clean miracle.

One System. Fully Connected.

The Spirit Series is deeply integrated into the Electricks ecosystem:

- Atom 2
- Quantum
- PeekSmith 3
- MrCard
- MysterSmith
- PeekSmith app
- iOS & Android integrations

Reveal calculations from Quantum on Spirit Echo.

Send inputs with Atom.

Peek on MrCard or PeekSmith.

Display drawings anywhere.

Everything talks to everything.

This level of integration didn't exist before.

Example Routines

- Drawing Duplication (but cleaner than anything before): spectator draws ? appears instantly ? you trace ? hand out real chalk drawing
- Time Prediction: input on Atom/Quantum ? reveal instantly on Echo
- Tic-Tac-Toe Finale: spectator makes choices ? board updates in real time ? ends clean
- Name Reveal: spectator writes name ? Echo reveals it ? you wipe it clean ? board is examinable

Why Performers Love It

- Three matching A4 boards that work together or independently
- 100% natural appearance - looks like real classroom chalkboards
- Silent, fast, and reliable under real performance conditions
- One of the most flexible utility systems ever created
- A complete modern take on the classic spirit slate
- Designed for stage, parlor, and close-up
- Packed with unique features no other combination offers
- Early access to new features like TrueSketch, clocks, games, and more

Everything feels natural. Everything looks innocent. Everything works instantly.
