The Effect:

The performer holds a large light bulb. With no wires or batteries connected, it glows brightly at your command. After it fades, while the audience may suspect hidden batteries or a secret power source, you unscrew the base to reveal that there is no filament inside. Instead, it is filled with candy, a gift, or a spectator's item. You can hand everything out for examination.

Features:

- Real Components: Made from authentic light bulb parts for a realistic look.
- Perfect Illusion: A hidden, external device creates the perfect illusion of light from within.
- Total Freedom: Because the bulb is empty, you can hide anything inside, from written predictions to vanished rings.
- Examinable: You end clean.
