

Painting Card by Mickael Chatelain

Achieve stunning visual magic with astonishing ease. Thanks to this gimmick, impossible predictions, lightning-fast vanishes and color changes become accessible without any complex technique.

A VERSATILE, ULTRA-VISUAL GIMMICK

Painting Card is an ingenious creation by Mickaël Chatelain, developed in collaboration with Gentlemen's Magic. This gimmick allows you to perform highly visual, eye-catching effects with remarkable simplicity. Impossible predictions, instant vanishes and color changes are now within everyone's reach, with no difficult sleight of hand required.

IMPOSSIBLE EFFECTS RIGHT BEFORE THEIR EYES

With Painting Card, you can present routines where transformations happen directly under the spectators' gaze. The gimmick does all the work for you, delivering clean, visual and truly astonishing effects.

IMPOSSIBLE PREDICTION

Two black Aces frame a face-down card representing a prediction placed under a glass, visible from the very beginning. A spectator freely chooses a card, signs it, and returns it to the shuffled deck. When the prediction is revealed, it not only matches the chosen card — it is the spectator's signed card. A true close-up miracle with no manipulation.

VISUAL COLOR CHANGE

A card selected from a red deck instantly changes color to blue. The effect can even be performed with a signed card, making the transformation even more impactful.

THE TRAVEL

A signed card instantly vanishes from between two cards and reappears face-up inside the deck. A fast, visual and extremely effective effect that requires no palming and no difficult moves.

DECEPTIVELY SIMPLE TO USE

Painting Card was designed to let any magician perform professional-level effects without advanced technique. The gimmick handles everything, allowing you to focus on presentation and audience

interaction.
