

Numerology Dice by Mato and TCC Magic

A roll of the dice. A moment of fate.

Your audience volunteer rolls the wooden dice and adds up the seemingly random numbers. Yet, you have already predicted the result. With Numerology Dice, ancient wisdom meets modern craftsmanship to create a prediction experience that feels both mystical and meaningful.

When these numbers are engraved onto handcrafted walnut dice, every roll becomes an intriguing glimpse into destiny.

Numerology Dice includes two wooden dice - one red and one blue - paired with a walnut lid-and-base box.

Each die is crafted from solid walnut and laser-engraved on all six sides. The engravings will not fade or chip, and the rounded corners ensure a smooth, comfortable grip.

The numbers on the dice are derived through a specific formula. Use either die on its own for a quick effect, or roll both together for a richer, more complete, and visually satisfying presentation.

A gold-stamped prediction card completes the set, combining elegance with functionality. The prediction card includes not only the numerology-based outcome but also key interpretation meanings. These can serve as prompts to help you frame and engagingly explain the reading.

Key Features:

- Solid Walnut Dice with Laser-engraved numbers.
- Each die can be used independently or together.
- Perfect for mentalism, storytelling, or reading-style performances.

What You'll Get:

Red Numerology Die

Blue Numerology Die

Walnut Lid-and-Base Box

Prediction Card

Specifications:

Dice Material: Solid walnut
