

X1 Retro Red - Pokerdeck

Available in classic red and blue colorways, the cards offer a firmer feel with sharp, clean cuts.

They follow the ARRCO-style American traditional handling-like a coffee with a distinct flavor profile. The feel is similar to classic Ohio playing cards, offering smooth cuts and a sturdy grip.

The design stands out with originality. Rather than traditional vintage, it is built around a "burnt" concept: heavy yellowed tones combined with distinctive cracked textures create an intensely nostalgic atmosphere with strong visual impact.

Balancing practicality and value, this deck is well suited for daily practice, flourish displays, and collection alike.
