

## All New Anything Box by Classicho

A brand-new drawer box with a new mechanism, large capacity, and effortless performance!

Among classic magic accessories, the Drawer Box has always been a favorite among magicians and collectors. Over the years, countless versions have appeared, but our pursuit of refinement continues. Introducing the **All New Anything Box**, featuring a brand-new magnetic locking mechanism.

This mechanism solves two long-standing issues of traditional drawer boxes:

1. The drawer can now be fully extended and detached.
2. The performer can cleanly display the interior and exterior of both the box and drawer.

Thanks to the redesigned structure, resetting and triggering the box is now smoother than ever. Instant reset and trigger: fast, simple, and convenient!

With its large capacity, the **All New Anything Box** easily accommodates two decks of cards, making it suitable for diverse performance or storage needs.

Each piece is crafted from Sapele wood for its warm tone and rich, mahogany-like grain that adds depth and character. Every magnet is hand-inlaid by artisans, some subtly embedded within the structure, seamlessly blending aesthetics and precision craftsmanship.

- Brand-New Magnetic Locking Mechanism - cleanly show both the inside and outside of the box
- Large-Capacity Design - easily holds two decks of cards
- Instant Reset & Trigger - fast, smooth, and ready for performance
