

Year of the Horse (Green) by TCC Fashion - Pokerdeck

Every New Year, we embrace hopes and expectations, sending heartfelt blessings for the future.

The 2026 Year of the Horse Exclusive is here for you!

In Chinese history, horses were not only part of the battlefield and long journeys, but also symbols of prosperity and ceremonial order.

During the Tang Dynasty, when the nation reached its peak, fine horses held their heads high-unassuming, yet full of spirit and elegance.

Emerald green emerged in this era, witnessing the sound of camel bells and horse hooves, and carrying hopes for journeys, communication, and safe returns.

The blend of green and horses is woven into the card design: deep, layered colors form the base, enhanced with embossing and green foil accents, creating a look that is luxurious yet restrained.

- Hot foil and embossing
