

Zodiac (Astrology Chart) Luminous Edition by TCC - Pokerdeck

Tuck box is crafted with pearlescent paper, its sheen glimmering softly like a morning star against the sky.

Dual-sided cold foil and fine embossing layer and shift under the light. As you tilt the deck, the emblems of the twelve signs catch the hidden holographic foil, glowing quietly-as if light itself is awakening from the dark.

The stars on the card back seem to breathe in soft light, while the zodiac wheel slowly turns, and the symbols of the twelve signs gently shimmer along its orbit.

When night falls, under UV light, hidden symbols are revealed-whispers of light, unfolding slowly in the silence.
