

Zodiac (Capricorn) Luminous Edition by TCC - Pokerdeck

We drew inspiration from the twelve zodiac signs to create TCC's latest project, Zodiac Luminous Edition, crafted with intricate illustrations and exceptional craftsmanship.

When cold foil and embossing intertwine and flow across the tuck, they shine like stars scattered across the night sky, making each zodiac sign truly come alive.

UV fluorescence technology is seamlessly integrated into the card faces. Under ultraviolet light, the textures quietly illuminate, and hidden clusters of stars emerge in the dark-like secret signals meant only for the night sky.

- Exquisite zodiac illustrations
- Detailed embossing and dual-sided cold foil on the tuck box
- Large-area cold foil and spot UV ink on the card
