

Glassy Briefcase 2 -Euro Version

The first version of **Glassy Briefcase** was warmly welcomed by the magic community. Now, we are excited to introduce **Glassy Briefcase V2**, featuring a brand-new presentation and an even more engaging routine.

Everything begins with a simple **credit card** in the magician's hand. From that moment, the story unfolds around one of the most fascinating subjects of all, **money**.

In a visually stunning sequence, the credit card magically transforms into real banknotes. The magician then opens the transparent briefcase, and in an instant it becomes overflowing with **money**, creating a spectacular and unforgettable finale.

The entire mechanism is **fully automatic**, allowing the effect to be performed smoothly, effortlessly, and with minimal handling. The routine is practical, reliable, and designed for both professional performers and serious magic enthusiasts.
