

Morpho V2 (Carmine) by TCC Fashion - Pokerdeck

Butterflies stand as nature's most elegant marvels. Emerging silently from dormant chrysalises, they unfurl their wings the moment metamorphosis completes, embracing the boundless freedom of the sky.

Their fleeting yet radiant lives make every wingbeat precious. Delicate and dainty as they are, they possess unyielding resilience: enduring confinement, finishing transformation, and soaring toward the light. This journey from slumber to bloom bestows upon butterflies their timeless symbolism: freedom, metamorphosis and rebirth.

Morpho V2 Carmine

- Die-cut window & Cold foil tuck box
- Cold foil stamped card backs

The Carmine Deck

draws inspiration from the Scarlet Mormon butterfly. Its wing design features vivid crimson red paired with neatly arrayed black speckles reminiscent of solar sunspots, striking a distinctive balance between vibrancy and poise.

As light drifts gently over the card faces, red and black blend seamlessly amid soft luminescence, deepening the crimson hue as though the pigment glows anew.
