

Portal Standard by Ark - Pokerdeck

This new ARK deck features an **unconventional** card structure unlike our previous releases. The top of each card is shaped into an arch while the base remains square, resembling a classic **Gothic archway**.

We also reimagined the tuck box with an innovative **3D arch structure** designed to evoke an ancient ruin. It can be folded closed or fully opened for display. What's more, intricate ancient totem patterns on the box are finished with **premium holographic foil detailing**.

The card back showcases a magic circle woven from infinity symbols. An hourglass set at the center of the arch symbolizes the flow, cycle and reconstruction of time. Dragon totems lining the top and bottom stand guard like sentinels of a portal.

Every pip and suit has been fully redesigned with original custom artwork, bringing to life diverse creatures of a fantastical magical realm. Wander through winding caves and mines to discover exotic weapons forged by dwarves, then soar high among the clouds alongside heavenly angels.
