

Sybilla Mini - Pokerdeck

Welcome back to the realm of magic!

In the enchanted lands where elves roam the forests and pirates sail the treacherous seas, there exists another force - mystical, powerful, and divided between light and darkness. Witches have long played an important part, weaving spells, performing rituals, and shaping the very fabric of reality. This project gives you a chance to hold their power in your hands.

This deck celebrates a new form of magical storytelling, and every court card is represented by a woman. Devoted to the four elements and dwelling in hidden corners of the world, they were cast aside by the grand Orders of Wizards and High Sorcery, and formed their own conclaves, practicing the craft in secretive ways. A unique group of charismatic women has come together, united by their love for the art of witchcraft. Whether called upon to heal a wound, protect a ship, or curse an enemy, their intentions are as fluid as magic itself.

We invite you to experience magic, as you embark on a journey into the heart of it. Witches are not just spellcasters; they are rulers, protectors, wanderers, and agents of change. Every detail in this deck has been meticulously crafted, hand-drawn, and refined to offer a breathtaking experience for both collectors and players alike, featuring amazing coloring and beautiful creatures.

Features
