

Instant Rose by Vincenzo DiFatta

The magician shows a small piece of string held between his fingers. A moment later, he lights it... a burst of flame, a flash of light... and the string vanishes, leaving behind a beautiful rose that appears in his hand.

A poetic, visual, and surprising effect, capable of turning a simple moment into an unforgettable memory. Perfect for adding elegance, romance, and wonder to any routine.

A high-quality gimmicked rose is supplied, finished with great attention to detail, designed for magicians who want the very best on stage and in live performances.

The rose features a very practical hand-attachment system, allowing for a smooth, safe, and fully controlled appearance, so the performer can execute the effect with complete confidence.

- Almost automatic operation.
- Instant effect that amazes the audience.
- Professional, high-quality rose.
- Hand-attachment system for a controlled and natural appearance.
- Rose length: 32 cm.
- Only the rose is included - flash string not included.

Note: we recommend using flash string or flash paper to make the effect even more spectacular, but it is not strictly necessary.
