

Odd Sandwich by Nojima & Bacon Magic

This effect is an innovative handling of a classic routine by Nobuyuki Nojima and is also one of his personal favorites.

It uses two Jokers and cards with different back designs.

The routine has been restructured to enhance clarity, making it straightforward to perform and highly visual in performance.

The product includes specially prepared cards and instructional materials.

Note:

- **You will need to prepare your own red Bicycle deck.**
- **The gimmick will be either two Jokers + 5 of Hearts, or two Jokers + 5 of Spades (random).**
