

Designer Series: Legal Tender by Jackson Robinson

Bicycle® Legal Tender

reimagines the ornate craftsmanship of historic American currency as a fully custom deck-packed with engraving-style detail and classic Bicycle handling, designed by Jackson Robinson for The United States Playing Card Company's Designer Series.

Money has always been more than paper-it's a canvas for national iconography, symbolism, and the kind of meticulous linework you only notice when you slow down and look closely.

Bicycle® Legal Tender brings that tradition to the tabletop, translating the beauty of vintage U.S. banknote engraving into a striking deck of playing cards. Every element is built around the language of currency-filigree, vignettes, ornamental borders, and razor-fine linework-rendered with the same reverence you'd expect from a collector-grade print.

This edition is produced as a Bicycle-branded deck and released as part of The United States Playing Card Company's Designer Series, featuring original artwork by Jackson Robinson. The result is a deck that feels timeless in theme and modern in execution-designed for collectors, cardists, and anyone who appreciates traditional illustration at its sharpest.

Highlights

- Bicycle®-branded Legal Tender deck, produced in The United States Playing Card Company's Designer Series
- Designed by Jackson Robinson
- Engraving-inspired artwork drawn from the visual language of historic American currency
- Fully custom look and feel built around filigree, portrait vignettes, and ornamental linework
