

My Worker Peek by Axel Vergnaud

The ultimate mentalism tool for workers.

Are you looking for a foolproof, direct, and devastatingly effective way to obtain information secretly? Axel Vergnaud presents **MY WORKER PEEK**, a hyper-minimalist gimmick designed specifically for real-world close-up and table-hopping conditions.

A spectator writes a word, a drawing, or a secret thought on a card. Without a single suspicious move, and while everything happens in plain sight, you get a glimpse of the information instantly. You are immediately ready to read their mind.

- Visual and Direct: No suspicious moves. The peek is done completely naturally, right under your spectators' noses.
- Ready to Use: The gimmick is ultra-compact. It easily fits into any jacket or pants pocket, ready to be performed at a moment's notice.
- 3 Methods in 1: In addition to the primary handling, the project includes bonus ideas providing 3 different ways to get the peek. This allows you to adapt your method according to your audience layout or performance style.

FEATURES:

- Robust gimmick built for heavy use (ideal for professional gigs).
- Business card format gimmick: 85 x 55 mm.
- Clear explanations (in French and English) including routines and peek variations
