

ACE FULTON'S CASINO SAMPLE PLAYING CARDS

Here it is...the rarest collectible from the days of Ace Fulton's Casino! These "sample" playing cards were created to display an array of Ace Fulton Classics all in one deck!

That's right--the back is half Dodger Blue and half Red Hot. Various suits are printed on of white stock just like the Midnight Fuel Edition. One suit even has Arrco Faces just like the green + gold variants of yesteryear.

This faux sales sample is everything you want in a deck of cards--you've never seen anything like it. Complete with LONG TUCK BOX FLAPS just like they did before you were born.

Each card is custom and features a throwback "sampling" from the numerous Ace Fulton's you've heard rumors of.

A truly one of a kind deck of cards.

Deeply embossed tuck box featuring a retro 'long flap' box. Printed on Fulton "Crushed Stock" for cardistry.
