A Life Extraordinary - The Museum of Extinct Animals

Inspired by the Museum of Extinct Animals, these playing cards were produced in collaboration with Mooui - the award-winning, Dutch interior design company.

With the Museum of Extinct Animals, Mooui celebrates nature's diversity!

Inspired by stories and drawings they found, they bring these beautiful creatures back to life through designs that tickle your senses and imagination.

Mooui

The Extinct Animals are back alongside two brand new stunning editions: Tokyo Blue and Memento Mooui! Tokyo Blue is steeped in the spirit of Japanese tradition, inspired by the Indigo Macaque. Memento Mooui celebrates kindness, connection, and the joy of living in the moment, bringing together a medley of affectionate extinct creatures.

A Stunning Collector's Set - And a functional art piece

The Mooui Collector's Box Set is constructed with elegant black vegan leather - a robust carrying handle, a logo tag, a magnetic closure panel that keeps everything sealed inside, and a sturdy display tray featuring even more breathtaking artwork. Each deck invites you to pause, play, and remember the beauty of now.
