

Nicholas Lawrence presents Warped and Split

Nicholas' Original Pocket Illusion - BLADE has just received a serious upgrade!

Perform **Warped & Split** with just 3 normal cards and a clever gimmick hiding in plain sight! Before you had to use cover and have your audience trust that you put the card in the middle... Now they see the card slide in and out-ridiculously fair! Nothing to hide...

This isn't just a 2.0-it's a complete evolution. Featuring an all-new method and powerful new applications, W & S will fool even experienced magicians... Just imagine what it does to your spectators!!

Everyone knows the classic "Sawing a Lady in Half" illusion. Now you can perform that impossible moment close-up, just inches from your spectators' eyes... and Now with a diabolical method and extra effects it's even more impossible!

They see the card in full view the entire time!! This is one of the BIG reasons why this gimmick is truly next level-The gimmick & card switch invisibly! Seamlessly transition from the gimmick to the examinable card flawlessly!

The two signature effects, **Warped & Split**, are incredibly easy to perform while looking exactly as they should. The handling is clean, natural, and completely justified-nothing suspicious, just pure visual magic.

Everything is immediately examinable. No Switches. No funny business.

Borrow a regular deck, even customize the gimmick with ease to any standard deck or card selection, carry one of the most visual & practical pocket illusions you'll ever own.

NO FRAGILE MATERIALS!!
