

The Hanging Gardens of Babylon (Special Edition Numbered Seals) by Room One EON - Pokerdeck

Step into the timeless allure of the Hanging Gardens of Babylon with this exquisite deck of playing cards; a living extension of the ancient myth that has captivated hearts for centuries. Crafted as a tribute to the fabled terraces of King Nebuchadnezzar II, each card pulses with the mystique of a lost paradise, where lush greenery defied the desert and love shaped an empire. Infused with the soul of ancient Mesopotamia, the deck weaves vibrant blues, radiant golds, and verdant greens into designs that echo the artistry of Babylon's glazed bricks and starlit ziggurats.

The allure of the Seven Wonders is captured in the die-cut window tuck box, a centerpiece of this release. A window is punched out of the embossed and hot-foiled tuck box, allowing us to peer into days past, where the Hanging Gardens of Babylon takes center stage as our 55th custom face card.

We have opted to give the same tuck box treatment to both STANDARD and SPECIAL Editions*

The number cards feature subtle and intricate detailing which enhance each card's dimensionality, with bold pips which pop on the cards with their non-traditional placement.
