

Babel Book Test 4 by Vincent Hedan (Memory of tomorrow), medium, 600 pages

Imagine a normal-looking book allowing you to perform miraculous mind-reading demonstrations. You don't touch anything, you don't even look, and yet you can read the spectator's mind and reveal his thoughts in impossible ways.

The novels in the **Babel** collection have been carefully designed to have devious features allowing you to present easy yet strong mentalism.

Divination and memory demonstrations, for close-up or stage, for one or more participants: everything is described in the detailed 68-page instruction manual. You'll also receive an 18-page bonus section, featuring ideas from other users of Babel, exploring new territories thanks to this versatile tool.

In total, you'll discover 10 effects, covering 28 principles and ideas.

ALL the novels in the **Babel** collection allow you to use ALL the principles and effects. You just need to choose the book that is best for your situation. Maybe you'll like a title or cover more for your style, maybe you'll prefer a thin paperback for close-up, or a bigger, thicker book when you're on stage. You can decide which book is best for you.

Of course, you can buy several different books in the **Babel** collection. The spectator will be able to choose freely between the books you present to them; it won't matter because, to you, they're ALL the same, so you'll always be able to perform your routine with the freely chosen book.

If you are a book test beginner, **Babel** will allow you to learn many principles separately, so you can master this tool at your own pace. If you are a seasoned professional looking for a solid tool, you'll be able to combine your favorite principles into a unique routine, specifically tailored to your needs.

I'm sure you will all benefit from adding this weapon to your arsenal, and I hope you'll enjoy using Babel as much as I did in the last ten years.

Now it is your turn to fool and entertain your audience with this impossible book test.

The idea behind **Babel** is to have several books that appear completely different and normal, while secretly being gimmicked in the same way. A participant can therefore freely choose any **Babel** book, and you will always be able to perform the routine you want. The bonuses in the instructions also includes some effects using multiple gimmicked books.

"The attention to detail and construction of effects implemented in Babel indicates a passion for achieving a certain set of impossible mentalist goals in as convincing and elegant a manner as possible. It's hard to imagine a more complete accomplishment of this task. Bravo!"

- **Francis Menotti, Magic Magazine**

"Watch, listen and learn all you can from a bright star of the future."

- **Luke Jermy**

"One of the finest, most ingenious minds in mentalism."

- **Ian Rowland**

"Very original and creative thoughts."

- **Marc Paul**

"Intelligent, deceptive and most importantly, magical."

- **Joe Barry**

"Brilliant would be an understatement. The amount of thought and genius in this creative is staggering."

- **Ning Cai**

"One of my all time favorite performers of miracles."

- **Shawn Farquhar**

"I'm a big fan of your work. Your creations reveal the nimbleness of your mind."

- **Jared Kopf**
