

Hopping Tie by Leon & MS Magic

Hopping Tie

is a professional visual magic routine created by Leon King & MS Magic.

Inspired by the classic legendary rope magic Acrobatic Knot, this routine has been completely redesigned with upgrades, cleaner visuals and a brand-new performance structure. It transforms a rope trick into a versatile, professional all-round tie magic act.

Performance Effect

The magician shows a plain white tie and ties a clear knot on it.

A second red tie is introduced. The two ties are visibly twisted and blended together.

When separated, the white knot magically hops and transfers entirely onto the red tie, leaving the white tie completely clean.

The magician can remove the knot, restore it, and with one gentle pull - the white knot melts and blends perfectly into the red tie's texture.

The routine finishes with an ultra-clean ending: the magician wears the transformed tie as a normal wearable accessory.

Key Features

- Works for stage, parlor, close-up, silent act & comedy act
- Multi-layer visual climax with multiple surprising phases
- Smooth, stable mechanism, no difficult sleight-of-hand required
- Ultra clean, examinable & wearable final ending
- Perfect for professional shows, corporate events and competitions
