

Blendo Bag (Seven of Hearts) by Aprendemagia

One chosen card. One empty bag. And an impossible ending.

Imagine this.

A spectator freely chooses a card from a thoroughly shuffled deck.

The card is lost in the deck and then placed inside a white **Blendo Bag**.

Now comes the challenge.

You ask the spectator how many chances they will give you to guess their card.

One chance?

Two?

Three?

It doesn't matter. You never manage to guess the card.

The spectator begins to think you've failed... until you make a magical gesture.

The bag is opened and something impossible has happened: All the cards that were inside have completely vanished.

But that's not all.

As you unfold the bag, every single card suddenly appears printed on it. A highly visual transformation that happens right in front of your audience. And now,

BLENDO BAG gives you two powerful ways to finish the routine.

ENDING #1 - THE IMPOSSIBLE PREDICTION

After revealing all the printed cards on the bag, simply turn it around. On the back, a large prediction is revealed: the spectator's chosen card.

You can choose between two card options: Queen of Hearts or Seven of Hearts

The selected card appears in a giant version, creating a strong and visual final revelation. A perfect ending for stage shows, parlor magic, family performances, and professional performances.

ENDING #2 - MENTAL TRANSMISSION

Want to take the routine even further?

Use the second ending.

The spectator looks through all the cards printed on the bag, searching for their chosen card.

But...

It's not there.

While the spectator is searching, you secretly reveal the chosen card to the entire audience.

The audience now knows something that the spectator on stage doesn't.

The card can even be handed out for examination before being placed back inside the bag. And then the real experiment begins.

You explain to the spectator that now they will have to use the power of their mind to transmit the image of their card to the audience.

The audience secretly receives the information.

You count:

1...

2...

3...

Then ask:

"Did you receive the card?"

And suddenly, the entire audience shouts the name of the card!

The spectator is completely stunned.

It appears that they have successfully transmitted their chosen card to the entire audience using nothing but the power of their mind.

A powerful combination of double reality, audience participation, mentalism, and comedy, creating a memorable theatrical moment.

WHY BLENDO BAG?

Because you're not simply getting a bag.

You're getting a complete routine that combines:

- A free card selection
- Direct spectator participation
- A visual transformation
- An impossible magical moment
- Audience participation
- A mentalism presentation
- Two completely different endings

You can perform it as a quick, visual magic effect or build it into a longer theatrical experience involving the entire audience.

And the best part?

YOU DON'T HAVE TO BE AN EXPERT MAGICIAN.

BLENDO BAG is designed to fit naturally into the repertoire of a professional illusionist, while also being an excellent choice for hobbyists and magicians who are just starting out.

If you're a professional, you have a visual and versatile tool that can be

incorporated into your live shows.

If you're an amateur, you'll have a routine with an impact far greater than its apparent simplicity.

And if you're just beginning your journey in magic, you can add a powerful, professional-looking effect to your repertoire from day one.

ONE BAG. TWO ENDINGS. COUNTLESS REACTIONS.

Make your spectator believe that you simply failed to find their card... until the entire deck disappears.

Make them believe the bag is empty... until every card suddenly appears printed on it. And then choose how you want to finish:

An impossible giant prediction.

Or...

A mind-blowing mental transmission involving the entire audience.

BLENDO BAG - Turn a failure into a revelation nobody sees coming.
