

Fracture by Rizki Nanda & RN Magic

A new take on the classic Torn & Restored effect, straight from the mind of Rizki Nanda.

Most people believe glass and mirrors are the most fragile things in the world.

But to a magician, nothing is more fragile than a single playing card!

A spectator freely chooses and signs a playing card. With nothing more than a simple flick, visible cracks suddenly appear across the card.

Then, just as impossibly, the cracks vanish.

The card is instantly restored to its original, perfect condition.

Break reality.

Destroy perception.

Leave your audience questioning what they just witnessed.

Everything you need to perform the impossible is included.

- No flap
- Easy to perform
- Instant reset
- Ready to perform
