

FLOATR by Vanshy

The invisible shelf for your playing card collection.

Display your decks your way. FLOATR keeps your collection securely mounted while blending seamlessly into the wall, so all you see is your cards - not the shelf.

Easy to install and designed for collectors, FLOATR can hold from 3 to 20 decks, with 10-15 decks being the recommended capacity for long-term durability.

Your collection. Your wall. No visible shelf.
