

David Regal's Locking DOLLAR-SIZED Copper Silver

The Copper/Silver Transposition dates back to Hofzinser and remains one of the great plots of coin magic.

When locking gimmicked coins were developed, new vistas were created for magicians, and Copper/Silver effects, which had always been amazing, became something extraordinary.

But the effect was an intimate one.

Now, thanks to David's DOLLAR-SIZED English Pennies, the classic transposition effect plays with greater impact than ever before. David has designed a 3-phase routine, an escalating staircase of effects leading to a final moment that is, in a word, astonishing.

The new DOLLAR-SIZED English pennies look right, sound right, and feel right.

This is a 3-coin set. You get:

- The perfectly machined, locking DOLLAR-SIZED Copper/Silver gimmick
- A precision-milled DOLLAR-SIZED English penny
- A Morgan silver dollar replica

Also included is a DOLLAR-SIZED bang ring (for reset), and a black coin pouch.

PLUS David's video instructions teach you how to use the locking DOLLAR-SIZED gimmick to perform Scotch & Soda style coin effects.

The Locking DOLLAR-SIZED Copper/Silver Coin Set. A joy to perform... and guaranteed to fool.
