

Akiba Frenzy! - Band Girls (Guitarist) - Pokerdeck

In the anime mecca of Japan - Akiba, we came across a group of musicians who had just emerged from their band practice room, carrying with them great dreams! It was also a great honor to visit their rehearsals and watch their official performance! Although they haven't officially debuted in the small theater yet, the energy they unleashed in the theater was truly astonishing!

Let me introduce to you all in a grand manner: Liquid Metal Jellyfish (L.M.J)!
