

Color Switch (Red) by Marco Markiewicz

An Ultra-Clean Color Change!

Introducing **COLOR SWITCH**, created by Marco Markiewicz

Imagine...

You take two cards folded in half one red and one blue out of your wallet, your pocket, or straight from your card case.

You place both cards in your spectator's hand and ask them to hold onto them tightly.

You then take back one of the two cards for example, the blue one and simply pass it underneath their hand.

In a fraction of a second, the cards have switched colors.

The card you are holding is now red... while the spectator opens their hand to discover that they are indeed holding the blue card!

And that's not all: you can immediately show that they are two completely ordinary cards and hand them out for examination with no switches whatsoever.

A visual, direct, and impossible effect-perfect for close-up and street magic.

- ULTRA EASY TO PERFORM
- NO DIFFICULT SLEIGHT OF HAND
- 100% EXAMINABLE
- NO SWITCHES
- TWO ORDINARY CARDS
- A VISUAL AND INSTANT EFFECT

COLOR SWITCH: two cards, one color change.
