

New Folding Wand by TCC Presents (Red Sandalwood)

This series of professional folding magic wands combines portability, refined craftsmanship, practicality, and timeless elegance. Whether used by a professional magician for regular practice or kept by an experienced enthusiast, each distinctive wand rests comfortably in the hand.

Folding Design for Easy Carrying

A high-precision sectional structure allows the wand to separate into two compact pieces with a gentle twist. It fits easily into an everyday backpack or prop case, making storage and travel far more convenient.

Exceptional Balance and Precise Control

Each wand is carefully weight-adjusted for a comfortable grip and balanced handling. From subtle concealed movements to elegant fingertip spins, every motion feels accurate and controlled.

Three Distinct Variants

Carefully selected woods and complementary materials give each wand its own visual character and tactile warmth.

Vibrant Red Sandalwood: Warm, Natural Character

Crafted from high-quality red sandalwood, this version displays the wood's distinctive grain and warm, organic feel. Solid brass accents bring classic elegance to its natural character, while the wand provides a comfortable, secure grip.

- Length: 341 mm
- Diameter: 12 mm
- Weight: 60 g
- Materials: Red sandalwood with brass tips

Include a custom velvet pouch with a soft-touch finish, designed to protect the wood and metal details.
