

Cowand by Mago Flash

Introduceing a new magic routine called **COWAND**.

It includes a cow-themed magic wand and a small milk pitcher; together, they create a comedy magic act.

First, water is poured into the pitcher and transforms into milk; then, the water vanishes, and the milk actually appears inside the wand. Next, with a wave of the wand, the water truly transforms into milk, and finally, the milk appears as a paper streamer inside the pitcher.

It is ideal for comedy magic, children's magic, and parlor magic.
