

Traitors by Matthew Wright

A mesmerizing, modern twist on the legendary "Out of This World" plot.

Traitors World is an interactive, 3-phase routine built on trust, intuition, and instinct. Can your spectators find the traitors hidden amongst an army of faithful?

Virtually self-working and easy to perform, this show-stopper gives you everything you need to engage, amaze, and thrill your audience. Through a series of genuine choices, your spectators use deduction and social clues to guide the magic-leading to a completely impossible outcome.

Phase 1: A spectator cleanly deals a mixed group of players into two separate teams. Inexplicably, the cards successfully sort themselves into exclusively Traitors on one side and Faithful on the other.

Phase 2: From a mixed group of male and female players, a single male and single female traitor are intuitively isolated by the audience.

Phase 3: The climax-finding the secret mastermind traitor hidden deep within the ranks, or successfully identifying a shielded player amongst the faithful.

Why Perform Traitors World?

- A deeply engaging, modern psychological theme.
- Easy to do-let the magic happen in the spectator's hands.
- Instant reset for table-hoppers and strolling performers.

What's Included:

- A specially printed custom deck designed specifically for the routine.
- The custom secret utility item that makes the entire sequence work seamlessly.
- Comprehensive instructional download featuring step-by-step guidance and live performance footage.
