

Four Colour Flower Prediction - Bühnentrick

The magician displays a stand with four compartments numbered 1 through 4. From each one protrudes the image of a rose in a different color: Fuchsia, Blue, Green, and Yellow. Also in full view is an envelope containing a prediction, which is handed to a spectator.

The images are removed from the stand, turned face down, and thoroughly mixed, then placed back with their backs facing the audience.

A spectator freely chooses a number from 1 to 4. The corresponding card is turned over: it matches the prediction kept inside the envelope exactly, which the spectator can personally open and verify!
